While there could be multiple CCCs formed in the community of Sioux Falls, we are not actively pursuing that. You are our CCC and we don't have any plans to form others, however we will continue to pursue new partnerships with organizations and businesses that we feel would be beneficial in ensuring a complete and accurate count in the community. The Partnership Support Program dollars may be applied for by any of our active partners. If there are subcommittees of the CCC that have a project specific to their area that they would like considered, they could apply for that funding.
