

Complete Count 2010 Committee
July 29, 2009
3:00 p.m.
Health and Human Services Classroom 1

Main topic of discussion was Group Contacts (in order to educate and inform); who are they?

We shouldn't wait until April (or March) and then try and get the word out that the Census is coming and what this means.

Work with various groups that serve the population groups (that we need to reach—especially the historically undercounted groups) about the need to get a complete count. Determine what they would want and need during March and prior to this date [Thursday, April 1, 2010].

So what groups are we missing, who should be contacted and communicated with?
