

RR ROW Drainage Ditch North of 57th Street

December 17, 2008

RR ROW Drainage Ditch

Overview: There are drainage concerns from the neighborhood that the drainage ditch does not operate as intended.

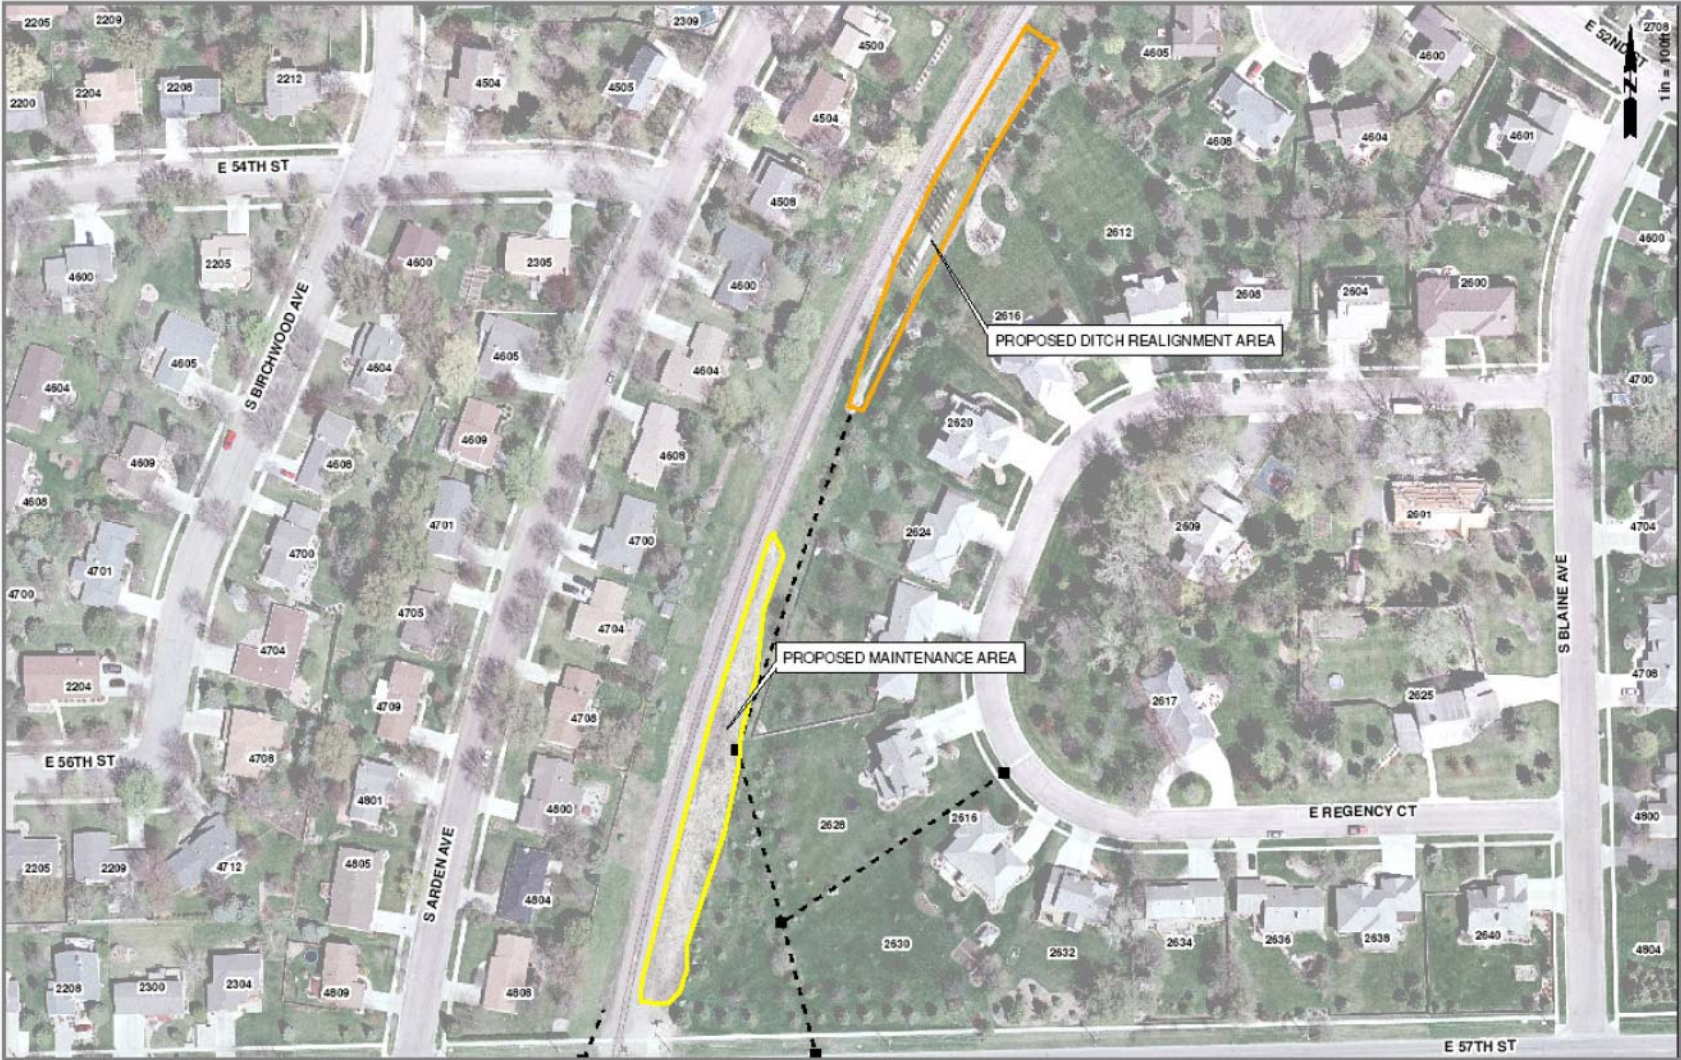

Intent of Public Meeting: The City has a plan for drainage improvements in this area. We are asking for your input prior to moving forward.

RR ROW Drainage Ditch

Two Main Concerns:

1. Maintenance of the southern portion of the ditch.
2. Realign northern segment of ditch to stay out of private property.

Overall Map

RR ROW Drainage Ditch

Maintenance of the southern ditch

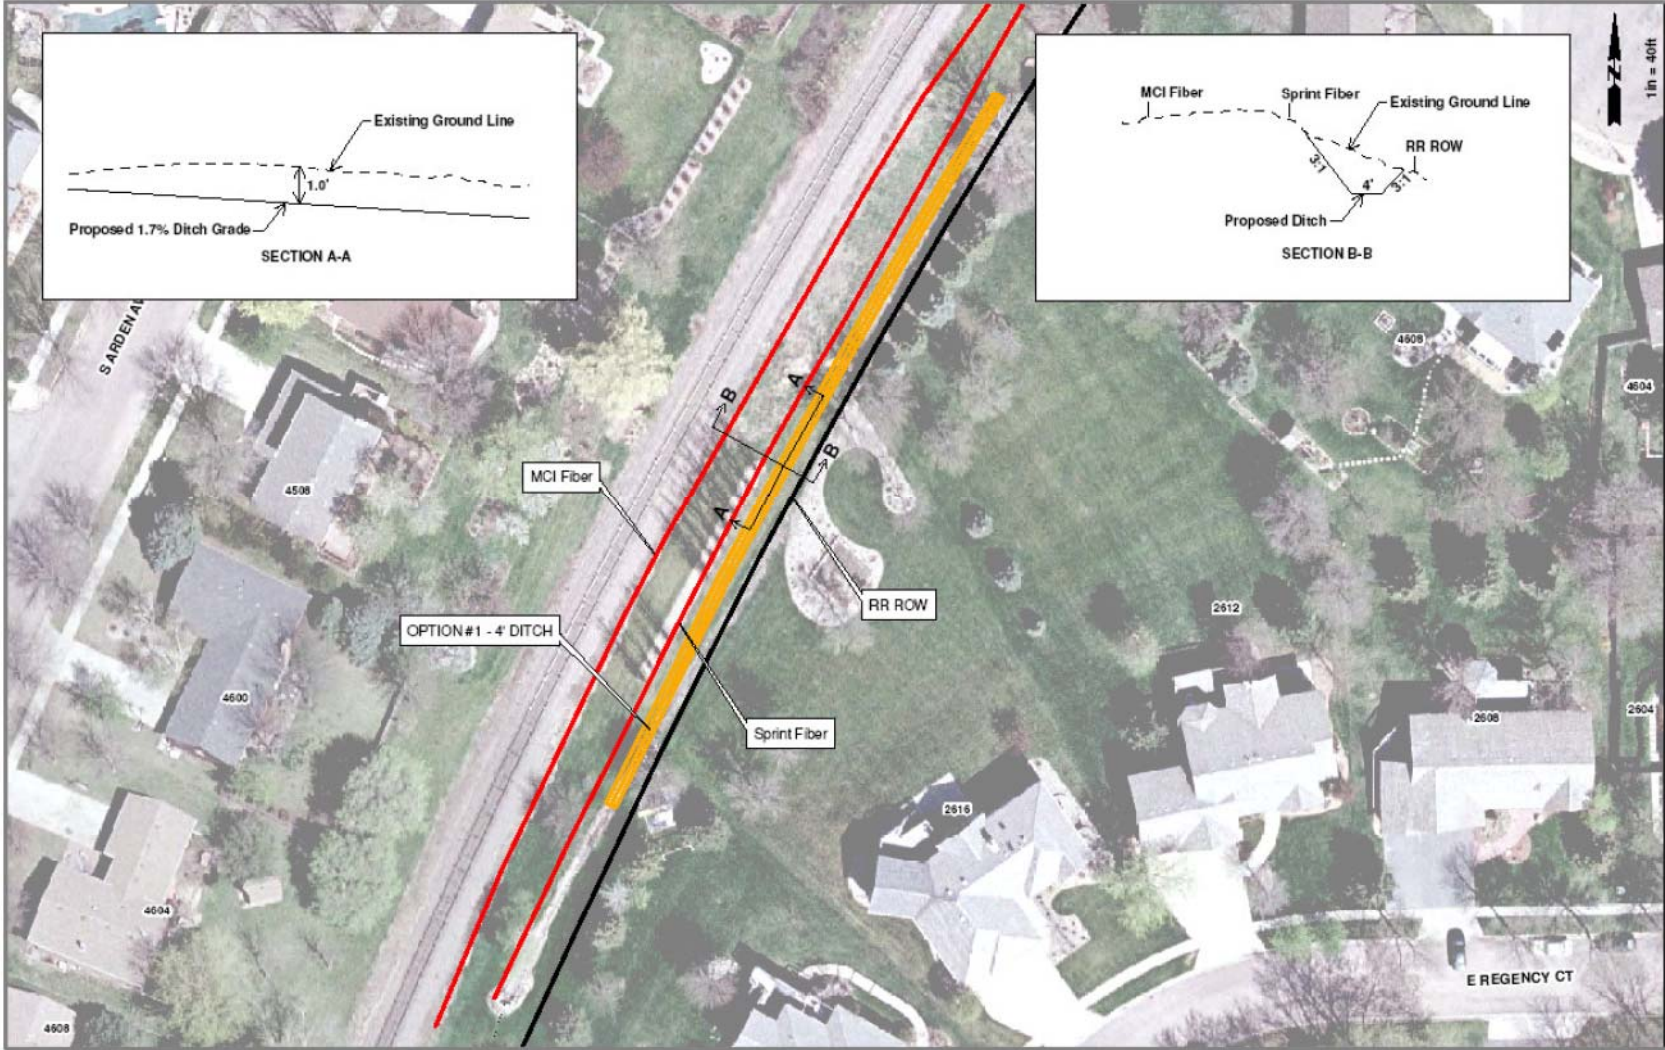

- Muck out the sediment and plant material
- Reshape channel to better convey runoff
- Ensure flow line of channel is routing water to the storm sewer outfall.

RR ROW Drainage Ditch

Realignment of the northern ditch

- Three options have been evaluated for the realignment of this ditch
- Based on comments from you, a final design will be completed for the best option
- Construction schedule will be based on option selected and final design completion

Realignment Option #1 – Preferred Option

Realignment Option #1 – Preferred Option

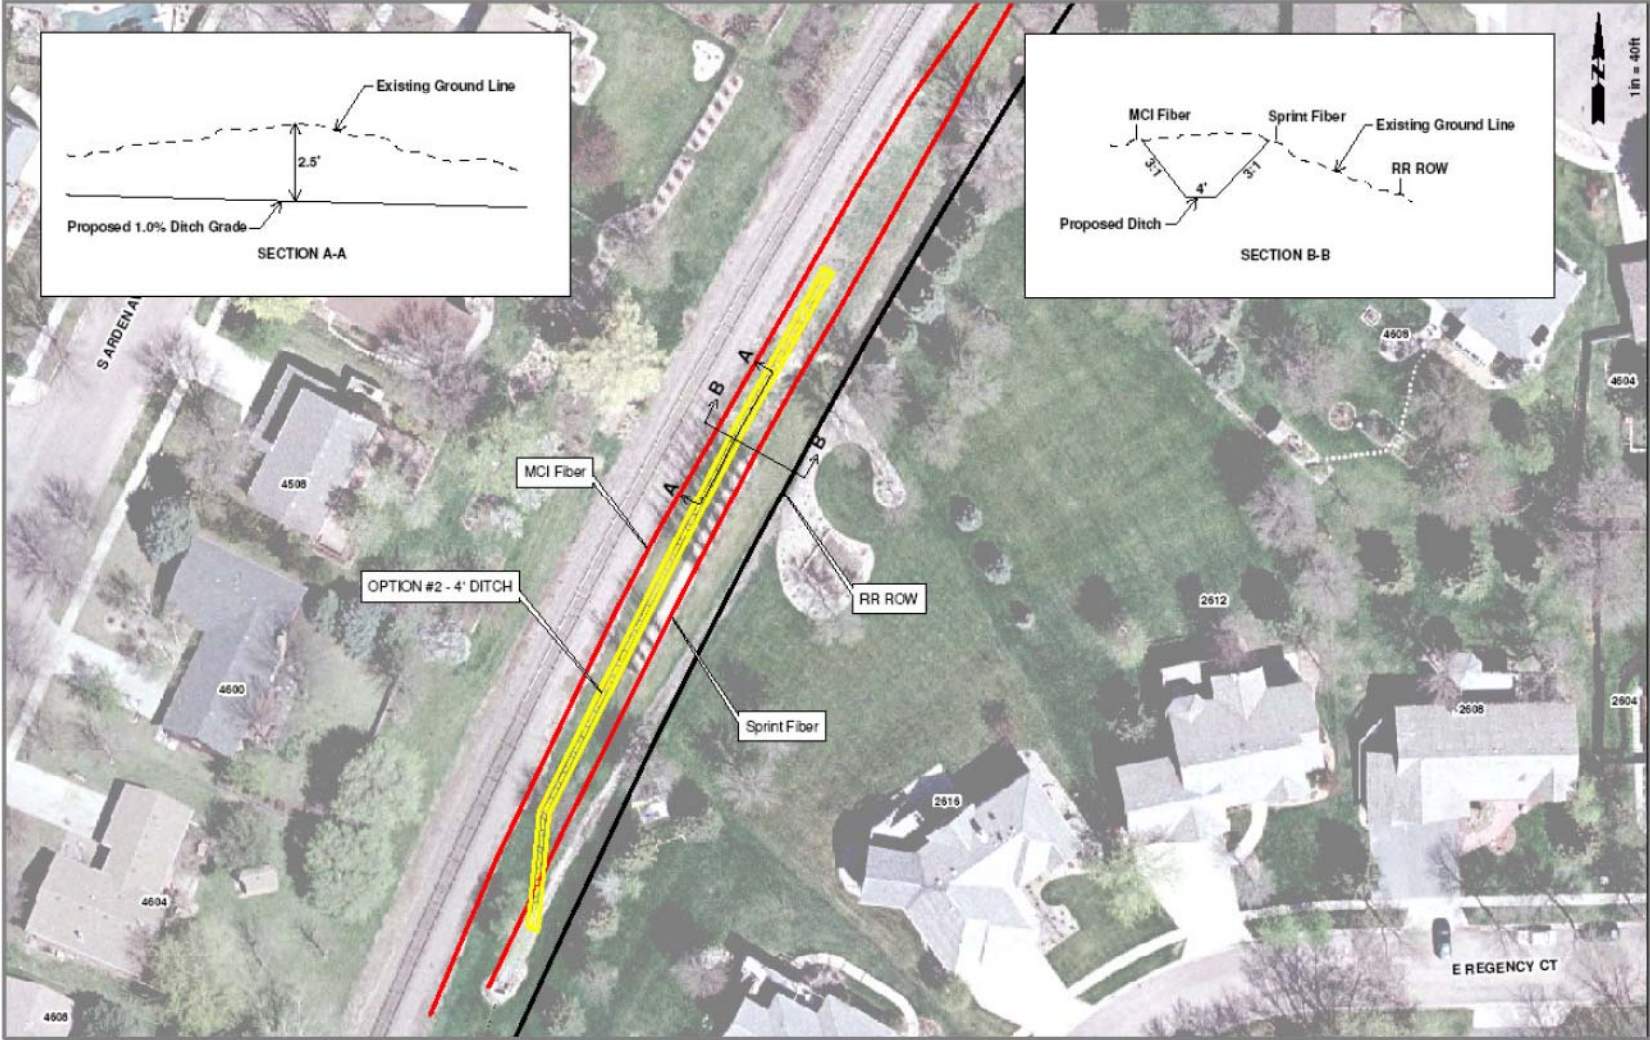

Advantages

- No utility disturbance
- Minimal tree disturbance
- Convey backyard storm runoff
- Minimal construction cost

Disadvantages

- Minor impact to private property

Realignment Option #2

Realignment Option #2

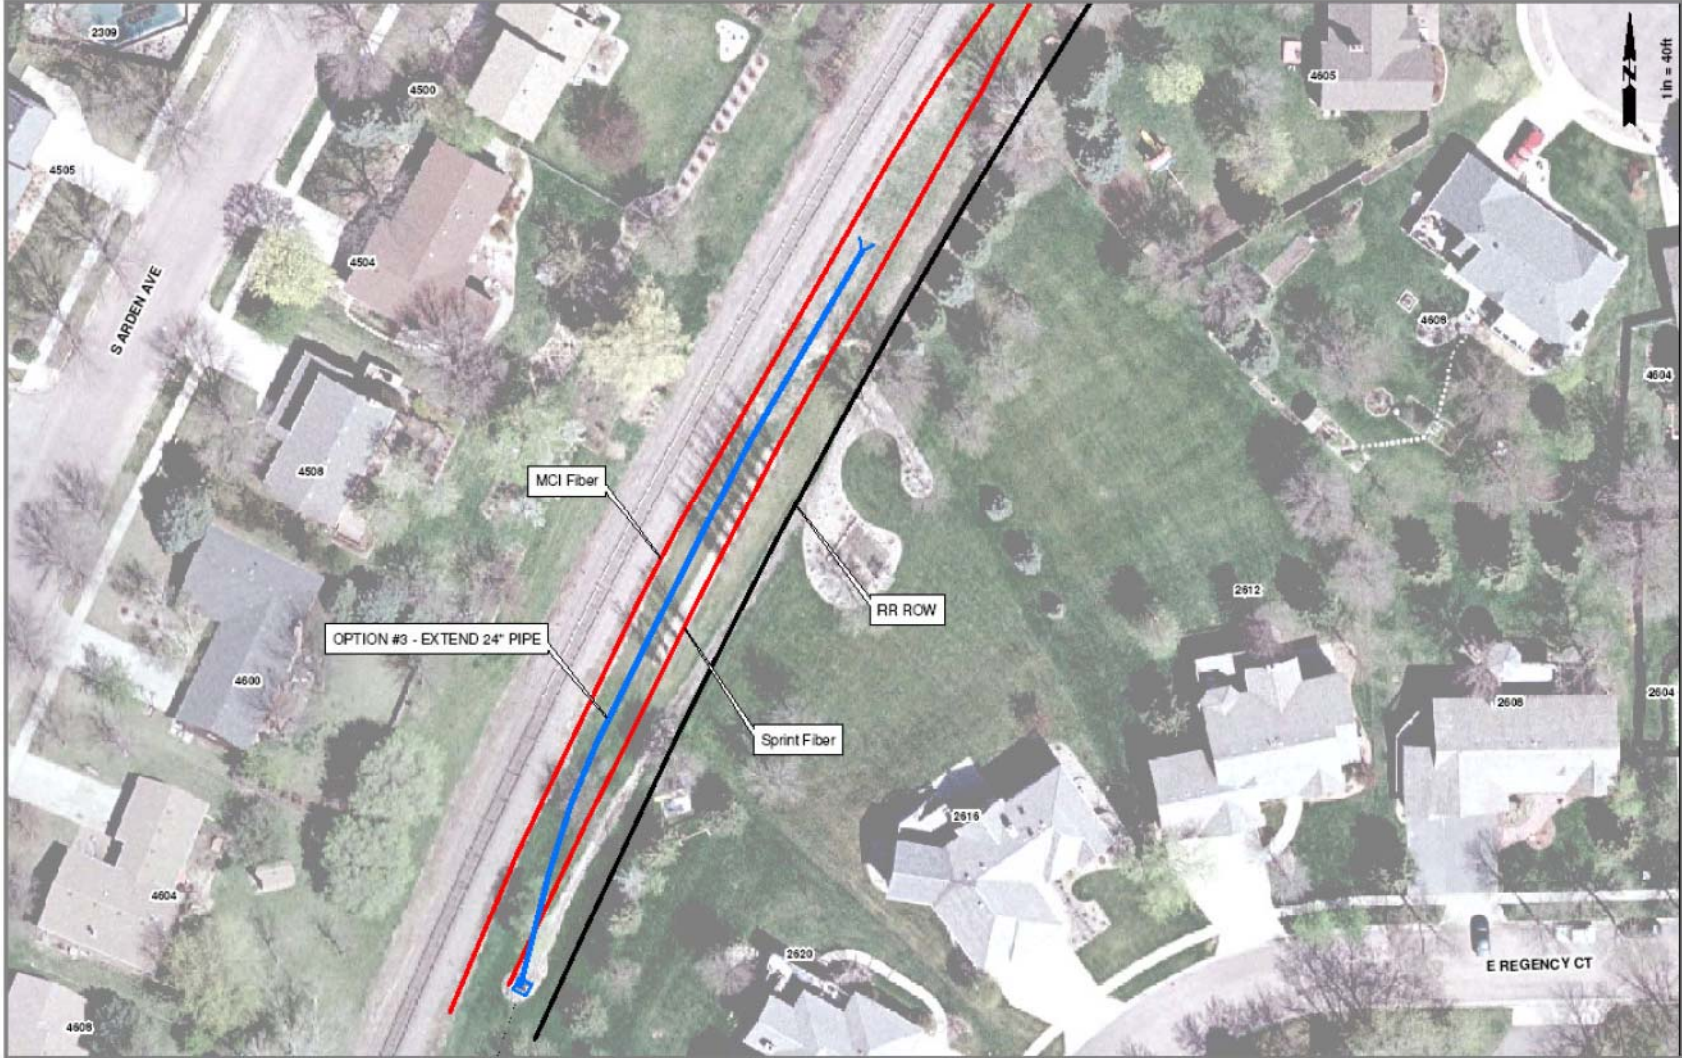

Advantages

- No impact to private property
- Minimal construction cost

Disadvantages

- Utility disturbance – Sprint fiber
- Minor tree disturbance
- Will not convey backyard storm runoff

Realignment Option #3

Realignment Option #3

Advantages

- No impact to private property

Disadvantages

- Utility disturbance – Sprint fiber
- Minor tree disturbance
- Will not convey local storm runoff
- More construction cost
