B. Air Fares out of Sioux Falls have risen in the past year due to the reduction in service by Frontier. Average fares for the first half of 2015 have increased 6.2% compared to 2014 and 9.2% compared to 2013. Reduction in seat capacity has reduced the number of the non-refundable fares that are available leaving the remaining available fares at a higher rate. The Executive Director is working with the Delta Airlines pricing department to bring fares closer in line to what is available out of Omaha and Minneapolis.
