   A. Construction Updates:
(a) Checkpoint/Lobby renovation continues. Phase 1 is complete which includes the new administrative offices, expanded checkpoint screening area and offices for security screening staff. Airport administrative staff and screening personnel have moved into their respective areas. Phase 3 has begun which includes demo of the old administrative offices and structural changes to allow for installation of new escalators and elevator.

(b) Lower level interior improvements continue in baggage claim and connecting hallway. This phase of construction is expected to be substantially complete July 31st with work in the ticketing area planned to begin in early August. Final completion expected the end of September.

(c) The Runway 3-21/Bravo Rehab project began May 4 with the runway closed for a planned 56 days. Due to weather conditions and equipment failures, projected reopening of the runway pushed back to August 21, 2015. 1,000 ft x 25ft wide pavement has been poured on the south end of the runway that failed established FAA specifications. Airport instructed contractor to remove and replace per spec, but elected instead to petition the FAA for waiver and request to grind to designed elevation. Airport received letter from FAA granting waiver from specifications and allowing contractor to grind concrete deviations. Executive Director will consult with Regional/National FAA Airport officials as well as Legal Council on next steps.
