Approval of Minutes of Last Meeting

New Business

Appeal 1-2016. Larry Crane of Perspective will represent the Avera Group West Project, a three story medical office facility, currently being constructed at 5200 W Lakeshore Drive. Mr. Crane will propose the utilization of a Kerlite panel as an exterior adhered veneer. Said panel is a laminated porcelain stoneware, is 5.5 mm thick, 2.9 psf and is proposed to have an area of up to 33.3 square feet of face area. Exterior adhered porcelain veneers are limited to maximum thickness of 5/8's inch, a maximum weight of 9 psf, 24 inches in any dimension, and a maximum area of 3 square feet per tile. Mr. Crane will propose that the additional area of the adhered porcelain panels be accepted based on the designed L/600 deflection capability of the wall, the weight of the panels and the shear capability of the adhesive to be utilized.

Adjournment

Accessibility. Upon request, accommodations for this hearing will be provided for persons with disabilities. Please contact the Planning and Building Services Department office at 367-8670, 48 hours in advance.
