QUALITY:
Dental Report
In January, Dr. Schmitz and Dr. Naber attended training with the NNOHA Collaborative. They learned ways to guide a patient to make health changes with more open ended questions regarding the care of their teeth, called Motivational Interview. Rana DeBoer from HR will help with the 6 months of motivational interview training for the staff. They also learned about silver diamine fluoride, which is a relatively new product to stop a cavity from growing with minimal cost. The dental staff was trained in this process yesterday.

Due to the training that Dr. Schmitz and Dr. Naber attended January’s number of appointments was down slightly compared to the last 3 months. The dental clinic had 2,647 patients seen as an emergency in 2016, which is an average of 11 per day.

The school based clinics, from September 1st to December 31st had 144 students enrolled at Hayward, 123 at Hawthorne and 45 enrolled at Terry Redlin, with 88 completed exams at Hayward, 91 at Hawthorne and 16 at Terry Redlin. The decay rate is above 65% at all three schools.

Staff will be meeting with the schools in April to review the current process of obtaining completed paperwork. We are also moving forward with hiring a Locum provider to cover patient visits for May 8th through June 2nd during Dr. Geffre’s maternity leave.

ACCESS:
As the PCMH standards get more specific, we are adjusting our policies to meet those standards.
