In the clinic the managers have a daily meeting and communicate with staff any changes in policy or procedures. The staff is asking great questions and we will be looking to modify our ours of operations and scheduling of acute patients, utilizing health hours or well checks and lab work coming in early with those with respiratory issues after that. Staff is being mindful of social distancing and scheduling so not all staff are here at once. The dental staff is screening patients as they come in and restricting visitors with patients. We have added another phone triage room to help with phone calls, and dental staff is also cross training at the medical front desk.
