Cash & Investments: Vernon stated that cash holdings grew due by 40,500 received from March operating subsidies and 2017 year-end Shelter+ Care funds.

Other Programs: Finance Director Kreun stated that operating funds have been pulled down early for March, which helps the current financials; however, he stated that the HOPWA program still has about $60,000 in receivables which should be received as soon as the SFHRC’s office receives a copy of the executed grant agreement. Vern stated that Director Fulmer has been in touch with the City regarding the expenditures for the Bright Futures fund. SFHRC will run out of funding by end of June 2018 if the funds are not increased. Director Fulmer expects funding to be increased by 25% or 287,000 for FY 2018. Vern stated that leasing is under par for two of SFHRC’s Mod Rehab projects for the first two months of 2018.

Public Housing: $123,871 is due from the Commission to Public Housing and is sitting in general funds to be used. Receivables have increased due to the abandoned units at the beginning of the year. Operating subsidy of $19,001 was received for March.

South Sycamore Estates: The amount due to the Commission decreased from January by 1,266 and stands at $51,518. Accounts receivable also decreased during the month of February 2018.

Housing Choice Voucher Program: HCV is ahead of budget for FY 2018. SFHRC is over $26,000 ahead of budget.

Currently, the SFHRC is decreasing HCV leasing, but maintaining approximately 103.5% funding utilization which draws down about $22,000 in HUD-held reserves per month. HUD-held reserves stood at 871,000 at the end of February 2018.

Family Self-Sufficiency Report (Lisa Bartell)

Lisa Bartell provided the update of the FSS Program. Currently, there are 108 participant families in the program with child care utilization at between 5-6 children per night. Director Fulmer stated that there is an additional house under construction at the CTE Academy and that he has contracted with one sub this year (Frisbees) to install electrical, plumbing and mechanical. This should streamline completion once the house is delivered to the site.

Director Fulmer stated that he and the project attorney were nearing a solution with the City Planning office to subdivide the property, so the second phase could be built as planned or sold to a buyer, if necessary.
