## Sioux Falls Year-Round Lawn Watering Program

**IN AN EFFORT TO** utilize our water resources in an efficient manner, the City of Sioux Falls has established a year-round lawn watering schedule. All municipal water users must follow the lawn watering program below.

**LAWN WATERING** for all residential, commercial, industrial, and City facilities is allowed with the following exceptions:

- Watering lawns is not allowed during the hours of 12 p.m. (noon) to 5 p.m.
- Users with even-numbered addresses may water lawns on even-numbered calendar dates and users with odd-numbered addresses may water lawns on odd-numbered calendar dates.

**LAWN WATERING** for all residential, commercial, industrial, and City facilities is allowed one day per week based on the last number of your property address. Use the following schedule:

0 – Monday	4 – Thursday	8 – Sunday
1 – Tuesday	5 – Friday	9 – Sunday
2 – Wednesday	6 – Saturday	
3 – Wednesday	7 – Saturday	

For example, 108 E. John Doe Lane would water on Sunday.

- Watering lawns is not allowed during the hours of 12 p.m. (noon) to 5 p.m.

**LAWN WATERING** for all residential, commercial, industrial, and City facilities is not allowed at this time.

The lawn watering schedule is subject to change from Stage 1 to Stage 2 or Stage 3 if weather conditions warrant. Changes in the lawn watering program will be released through the local media and at [www.siouxfalls.org](http://www.siouxfalls.org).

*MORE INFORMATION ON BACK*

**WASTING WATER IS NEVER ALLOWED** (for example, leaving the hose running, miss-aligned or broken sprinklers).

**PERMITS FOR NEWLY INSTALLED LAWNS** will be allowed. Contact Public Works at 367-8600 for permit information.

**HAND WATERING OF VEGETATION** such as shrubbery, trees, ground covers, plants, vines, gardens, vegetables, and flowers is permitted any time of day if the water is applied by a hose that does not leak and is equipped with a hand-held nozzle that automatically shuts off when released.

**IMPORTANT WATER RATE INFORMATION.** Sioux Falls Utilities employs increasing block rates to encourage water conservation. This means the per unit charge increases as the amount of water used increases. Conservation rates can have a significant impact on your utility bill when irrigating your lawn or installing a new lawn. Visit our website at: [www.siouxfalls.org/utilities](http://www.siouxfalls.org/utilities) to view the current rates.
